

1 Day Paediatric First aid Course

The paediatric first aid course is designed for professionals whose occupation involves the care of infants or children. This course meets the requirements of the Early Years foundation statutory framework, OFSTED, Sure Start, NCMA. The Paediatric course teaches you to provide emergency care and first aid for children of all ages and infants of less than a year old. All candidates will be provided with a first aid pack (including wound dressing, bandage and vent aid for CPR) and a full colour First aid manual. Certification: On successful completion of this training course, candidates will be awarded A4 and pocket size certificate in Paediatric First aid which is valid for 3 years.

Respite Now is a Community Interest Company, registration number SC0421677
